Profile

Laravel Full-Stack Developer with 4 months of experience in building responsive web applications using Laravel, MySQL, HTML, CSS, and JavaScript. Skilled in MVC architecture, and version control with Git. Passionate about clean code, scalable solutions, and collaborative development in dynamic, growth-focused environments.

Project

Corpora One – Business All-in-One Web Application (Laravel) *Link*

- Implemented logo loader and role-based access control
- Developed payment index and demo mode functionality
- Posted job openings and screened candidate resumes.
- Created CV/resume PDF download feature
- Enhanced Accounting, HRM, and CRM modules

99 Learn – Online Learning Platform (Laravel) *Link*

- Implemented bundle course addition and comprehensive course management features
- Modified and optimized the login system for improved access control
- Enabled smooth student registration and user profile editing functionalities.
- Resolved logo loading issues for better branding and UI consistency

Proven Placement – Job Placement Support Platform (Laravel) *Link*

- Developed a dynamic Resume Builder to generate professional, structured CVs
- Integrated an ATS Checker to assess resume compatibility with applicant tracking systems
- Implemented job filtration features for personalized job listings
- Enabled real-time status updates for tracking candidate application progress

Experience

PHP Full Stack Developer – tinos software and security solutions llp, Kochi *15 MAR 2025 – Present*

- Developed responsive and interactive UI using HTML, CSS, and JavaScript frameworks (e.g., Bootstrap).
- Worked in WordPress, Laravel, and CodeIgniter.
- Built features involving both front-end and back-end components.
- Fixed bugs in server-side code and performed regular maintenance and updates.
- Ensured proper authentication and security.
- Designed and maintained relational databases (e.g., MySQL, PostgreSQL).
- Optimized front-end performance: minimized page load time, implemented caching strategies.

PHP Full Stack Developer Intern – Inmakes Infotech, Kochi *01 NOV 2024 - 01 Feb 2025*

- Ensured proper authentication and security.
- Designed and maintained relational databases (e.g., MySQL, PostgreSQL).
- Optimized front-end performance: minimized page load time, implemented caching strategies.
